## Contract for City Traffic Signals

Awarded by Public Works Board to General Electric Company for \$1,756—Severed Connection for New T. B. Hospital and Other Matters Discussed.

After transacting considerable business at the regular monthly meeting, the board of public works held an executive session Tuesday evening at the Municipal Building, East O'Reilly street. At the executive meeting bids for furnishing traffic signals to the city were opened and that of the General Electric company was accepted. The amount of the bid, which was the lowest, was \$1,756. The amount includes the furnishing of the equipment but not installation.

Isaac Abrahams, who owns a house at Murray street, was present and requested that something be done concerning the sewer to which his plumbing is connected. Mr. Abrahams after describing how water enters his cellar after heavy rains, was informed that a gate or backwater trap would be installed to remedy the condition.

**Sewer for T. B. Hospital.** County Attorney Robert G. Groves and County Superintendent of Highways James F. Loughran were present concerning the laying of a sewer connection on the property where the new Ulster County Tuberculosis Hospital is to be established on the Boulevard. Mr. Groves outlined the plan which called for the city to furnish the pipe and place it in the trench dug by the county employees. It was pointed out that the city might save considerable by laying the sewer in the trench to be dug by the county as the ground near the hospital property is very rocky. In order to make the trench a shelled one in which the water, gas and sewer lines may be laid, Mayor Edgar J. Dempsey appointed Commissioners Van Etten, Fessenden, Forst, City Engineer Hallinan and Corporation Counsel Flemming to investigate the matter thoroughly for a report at the next meeting. The investigation will in no way hold up matters concerning the hospital.

**Anxious About Airport.** Mr. Föllert, an aviator, who resides at 74 Wall street, appeared before the board to learn whether or not Kingston might establish an airport in the spring. He was informed that as yet no plans have been formulated.

**Lighting Cornell Park.** A statement from the Central Hudson Gas & Electric Corporation was read concerning the lighting of Cornell Park. The amount was \$1,520 or \$300 less than called for.

**Petitions Presented.** The following petitions were referred to Superintendent of Streets Mills: J. E. Conway, for material to fill Donovan pond; Kingston Lumber Company, material for filler on property; Aretas Lodge, No. 172, to erect a sign on I. O. O. F. building; Louis Ryan, to erect sign at 7 Wurtz street.

A petition from the proprietor of the Kingston Hardware Store, 744 Broadway, to install a service tank after the Standard Oil removes one, was not acted upon by the board. It was noted that the applicant be notified that the board has no power in the matter. The gasoline pump is of the curb type.

**Claim for Auto Damage.** A claim for repairs to his car, alleged to have been damaged owing to the poor condition of a city street, was entered by I. Abrahams. The matter was deemed one to be acted upon by the city council and the corporation counsel.

**Deed Not Accepted.** A deed which would give the city an extension to Grandview avenue was not accepted. It was thought proper not to accept the land which would make the avenue longer owing to its poor condition. Considerable work would be necessary to make a suitable road and a covenant would have to be built.

**Clifton Avenue Lights.** Commissioner Fessenden reported that he had examined lighting conditions on Clifton avenue which need adjusting. An additional light will be placed on the avenue and some others removed to spots where they will be more essential.

**Common Council Resolutions.** The following resolutions sent in by aldermen named were referred to Superintendent of Streets Mills: Molyneux, that drain be placed at 142 Hooker street as present one is not large enough; that a catch basin be placed at the corner of Third and Delaware avenue to replace present one which is too small. Radel, that guard rail on Spruce street be repaired.

**Flight Again Postponed.** Roosevelt Field, N. Y., Dec. 25 (AP).—The endurance flight scheduled for today by Bert Acosta and Emilie O'Grady was postponed for the third time because of Acosta's slight illness. No date was set for the flight. Weather reports indicated that tomorrow will not be favorable.

**New Trial for Lengel.** Columbus, Dec. 28 (AP).—The state supreme court of Ohio today upheld the court of appeals in granting S. A. Lengel, former Canton, Ohio, police chief, a new trial on a charge of first degree murder in connection with the slaying of Don M. Mellett, Canton editor.

## New Kidnapping Case at Oakland

Oakland, Cal., Dec. 28 (AP).—A new man hunt, with the alleged kidnapper of an 11 years old girl as quarry, spurred police into activity here today before the California public had relaxed from the excitement of the kidnapping and murder of 12 year old Marian Parker in Los Angeles.

The missing girl is Evelyn Smith, daughter of Mr. and Mrs. Frank M. Smith, of Oakland. Mrs. Smith yesterday swore out a warrant charging Robert E. McClelland, 27, a paroled convict, with having stolen the girl from her home on the pretense that his mother, described as a wealthy Pasadena woman, would adopt her and furnish employment for her father, who has been out of work and ill.

McClelland's mother, the wife of a Pasadena gardener, denied that she is wealthy, and said she knew nothing of her son's plan to take the Smith girl.

## Vessels Find No Trace of Dawn

Aboard U. S. Destroyer Sturtevant, off Sable Island, N. S., Dec. 28 (AP).—Naval and coast guard vessels engaged in an intensive search had found no trace of the missing plane Dawn up to 8 o'clock this morning.

The naval destroyers Sturtevant and Mahan began at daybreak a careful combing of the waters in the southwest quadrant of a circle of 75 mile radius with Sable Island Light as a center, while three coast guard destroyers were covering the southeast quarter.

The Sturtevant received this morning from the radio station at Sable Island the report that a message which it was thought might have come from the Grason plane had been heard at Heart's Content, Newfoundland.

## Blame Russians For Red Outbreak

Canton, Dec. 28 (AP).—A note stating that the Russians were responsible for the recent Communist outbreak here and the burning of the city was handed by the Chinese authorities now in control of Jay G. Houston, American consul and other foreign consulates yesterday.

Arms, flags and marked military maps proved beyond a doubt that the Soviet consulate was the headquarters of the Communists, the note said. It was stated that the Russian consul general instead of being released today, as planned, would be held until the incriminating documents were translated.

## Supreme Court in Session Thursday

## Delay Opening City Hall Bids

Common Council Extends Time to Open Bids for Balance of Work Until Friday Night Because Contractors Did Not Receive Plans and Specifications.

As some of the local plumbers had not received the plans and specifications for the plumbing, heating and water service for the restored city hall until a few days ago, the opening of the bids on that part of the contract was delayed until Friday evening. On motion of Alderman O'Reilly, at the special meeting of the common council held Tuesday evening at the Municipal Building.

About seven bids had been filed with City Clerk A. A. Styles before the meeting convened. When the council was called to order Alderman O'Reilly moved that the time for opening the bids be extended for ten days. In explaining his resolution he said that one plumbing contractor had informed him that he had not received the plans until December 22, which did not allow sufficient time to submit a bid on the contract. The motion was seconded by Alderman Molyneux, but before it was put to a vote Alderman Relyea inquired if delaying the opening of the bids would hold up the general contract.

Alderman Mann said he had been talking to one of the city hall architects and had been informed that a few days delay would not interfere. Alderman O'Reilly after conferring with Edward Reynolds, the local plumber who had not received the plans and specifications until December 22, changed his motion and extended the time for opening the bids to Friday evening, December 30, which was seconded by Alderman Molyneux and adopted.

The bidders who had filed their bids with the city clerk were informed by President Everett that it was their privilege to withdraw their bids at this time and resubmit them next Friday evening.

## Arraign 13 on Murder Charges

New York, Dec. 28 (AP).—Manhattan's judicial murder mills are to grind a heavy grist in the first month of the new year.

Thirteen persons, one a woman, all indicted for first degree murder, were arraigned before Judge Donnelly in special sessions today, to have trial dates set.

District Attorney Banton asked the judge to sign orders for special jury panels for the trials which he said he hoped to have all concluded during January.

The woman was Irene Johnson, 22, charged with the murder of Damon Fisher in her apartment last October.

None of the cases is such as to have received any prominence. Among the list of the accused are such aliases as Joe the Turk and Tony the Horse.

## Notables Share In Tax Refunds

Washington, Dec. 28 (AP).—The names of many of the nation's notables were presented to Congress today by Secretary Mellon as having been among those sharing in the return of \$103,853,687 in taxes which the government collected illegally during the fiscal years from 1925 to 1928, and prior periods.

Awards ran from a few cents to hundreds of thousands of dollars, and the bulky list showed Sir Harry Lauder, Brig.-General Smedley Butler, the late Dr. Percy Sickney Grant, the modernist preacher, and many other widely known persons as having had their troubles with the taxing authorities along with members of the Rockefeller family, the Belmonts, the Vanderbilts and the general run of business corporations.

## Lindbergh Hops Off on Trip to Guatemala City

The First Stop of His Central American Good Will Flight—Mrs. Lindbergh Also Takes Off on Trip Back to Detroit.

Valbuena Flying Field, Mexico City, Dec. 28 (AP).—Just as dawn lightened the flying field Colonel Charles A. Lindbergh hopped off at 6:35 a. m. today for Guatemala City, Guatemala, the first stop of his Central American good will flight.

The take-off was made in almost perfect weather conditions. There was no wind and the slight veil of mist near the ground was not enough to interfere with visibility.

The flier's mother, who had not seen her famous son take off on his New York to Paris or Washington to Mexico City flights, was at the field to bid him goodbye on this his latest venture.

A few minutes later at 6:55 a. m. Mrs. Lindbergh hopped off in the Ford plane which is to carry her back to her Detroit classroom. The plane took off perfectly and immediately headed east toward Tampico accompanied by two army planes.

Lindbergh started the Spirit of St. Louis across the field the moment there was a sufficient light to see the ground. He glided into the air after running half the length of the field. The plane described a great curve to the south and then turned east into the sunrise. It turned again toward the south and soon became a black speck against the rising horizon. Then with the escort of Mexican army planes it was soon lost to sight.

**Mother and Son Say Farewell.** Lindbergh and his mother said farewell to each other privately at the American Embassy before coming to the flying field. The Lone Eagle's public parting with his mother at Valbuena consisted merely of shaking hands just before he entered the cockpit of the Spirit of St. Louis. Then he kissed his mother's hand and said: "Goodbye mother."

When Lindbergh came to the field he was dressed in a dark business suit. He put his flying suit over this just before entering the plane. He shook hands with Dwight Morrow, American ambassador; Mrs. Morrow, members of the Embassy staff and a group of Mexican army aviators. Smiling, he said "Goodbye" to each one of them.

Mrs. Lindbergh, the Embassy party and Mexican officials stood on the field eagerly watching the Spirit of St. Louis until it disappeared. Then Mrs. Lindbergh and Mr. and Mrs. William B. Stout entered the cabin of the Ford plane. Ambassadors Morrow and Mrs. Morrow and members of the Embassy staff bid them farewell.

General Caloca, commandant of the flying field, was present as the personal representative of President Calles and said goodbye to the flier for the president. Lindbergh had bid the president goodbye personally yesterday afternoon.

**Lindbergh at Guatemala.** Washington, Dec. 28 (AP).—The State Department was informed this afternoon that Lindbergh landed at Guatemala City at 1:55 p. m., eastern standard time.

## Navigation Is Drawing to End

With the upper Hudson river ice-locked and the lower Hudson and Rondout creek filled with floating ice, navigation on the river is fast drawing to a close. The last tow out of this port for New York left Saturday night. Navigation on the upper Hudson is closed.

The Central Hudson Line is still operating between this port and New York and has not encountered thick enough ice to interfere with the operation of the steamers of that line.

In the Rondout creek the Cornell Line has laid up its fleet of tugs with the exception of the Itob, which will be kept in commission to assist the ferry transport when necessary and also to move any boats in the creek that require moving from point to point.

The cold weather that enveloped Kingston and vicinity over Christmas made excellent skating on the small ponds and creeks in the vicinity of the city and advantage was taken of that fact by large numbers of young folks.

## LINDBERGH MOST EXPENSIVE HERO

New York, Dec. 28 (AP).—Colonel Charles A. Lindbergh has been "the most expensive hero the American public ever had," Ray Hall, director of the Radio News Reel Service said today.

Mr. Hall estimated that Colonel Lindbergh's aerial exploits since he hopped off for Paris have cost the photograph and news gathering associations \$3,000,000. Most of this expense said Mr. Hall, brought no clear gain to the spenders. As the photograph and news associations are under obligation to their clients to get everything of interest about the flier.

## Home for Aged Meeting

The regular monthly meeting of the board of managers will be held at the Home for the Aged Thursday at 3 p. m.

## Hickman May Plead Not Guilty

Declare Members of District Attorney's Office Despite His Statement—Believe a Child Died of Fright and Exhaustion.

Los Angeles, Dec. 28 (AP).—William Edward Hickman, confessed kidnaper and slayer of Marian Parker, Los Angeles school girl, wants speedy justice.

"But not too speedy," the youth hastened to add to his statement made to newspaper reporters in his cell in the county jail. He explained that he thought he was to be rushed through a trial yesterday when he arrived at the county jail.

Hickman declared he had no intention of pleading not guilty to the charges of murder and kidnapping on which he has been indicted.

Soon after his arrival at the jail Hickman was taken into court for arraignment on the murder and kidnapping charges. On motion of District Attorney Aea Keyes, who told the court he had been advised that an attorney retained by Hickman's mother in Kansas City to defend him was en route here, the arraignment was postponed until Thursday.

Despite Hickman's denial, members of the district attorney's office declared they would not be surprised if the accused slayer of the girl pleaded not guilty.

Although Hickman's confession, made to Los Angeles officials returning him from Pendleton, Oregon, where he had been captured, said he killed the small girl by strangulation, county autopsy surgeon Wagner declared that his examination of the body indicated that the death of the child was not due primarily to this cause.

The belief was expressed by Dr. Wagner, a next door neighbor to the Parker girl's family, that she died of fright and exhaustion. He said she was of a nervous temperament, and that the body indicated that she had not eaten since the time of her kidnapping and probably had not slept.

"When her captor applied the towel about her neck, she realized what was about to happen and her heart stopped as the result of fright and exhaustion," the autopsy surgeon said he believed. He said there were no marks of contusion about the neck the girl's body and the lungs were not congested.

## Remus Begins His New Fight

Cincinnati, Dec. 28 (AP).—George Remus today began the prostrate fight which will send him forth freed of all blame for slaying his wife here last October 6, or to the state hospital for the criminal insane at Lima.

The court battle, brought on by the verdict a week ago of the jury in his murder trial that he was not guilty on the sole ground of insanity, began under conditions far different from those of the jury hearing.

Where hundreds struggled daily for six weeks to see the judge, jury, legal array and the chief figure, the former Chicago lawyer who became the "king of bootleggers," only a handful was present today.

## Prevented from Drinking Poison

Westmont, N. J., Dec. 28 (AP).—Fifteen year old Sarah Hilbert is recovering at her home today after an attempt to end her life because her mother would not allow her to keep a ring given her as a Christmas present by a young man.

She was prevented from drinking a bottle of poison in the bath room of her home last night by Amos Gorman, 19, Audubon, a school mate, who had given her the ring. Gorman knocked the bottle from her lips when she dashed up stairs after the girl, who left the room sobbing when her mother said she must return the ring.

Physicians said the young man's quick action had prevented her from swallowing any of the poison. She was treated for burns of the face and lips.

## Los Angeles Back at Hangar

Commander of Naval Dirigible Declared Search for the Missing Amphibian Plane Dawn Was Very Complete.

Lakehurst, N. J., Dec. 28 (AP).—The naval dirigible Los Angeles returned to her hangar today after a 31 hour cruise, during which time 24,000 square miles of ocean was scanned in a vain search for missing amphibian plane Dawn.

Lieutenant Commander C. E. Rosendahl declared the search very satisfactory and very complete and said that he did not contemplate any further search with the ship.

"The Los Angeles covered 1,215 nautical miles on her flight," he said, "and we could see at all times 20 miles on either side of the ship."

"The visibility was good and if any dunes or rocks had been set off in that area they would have been seen."

Commander Rosendahl said many ships were sighted in the area covered, including the two navy destroyers also engaged in a hunt for the Dawn. The commander expressed the opinion that if the Dawn had struck the water at night it was wrecked and sunk.

## Public Hearing On City Budget

Mayor E. J. Dempsey held a public hearing Tuesday evening on the tentative city tax budget for 1928 at the Municipal Building on East O'Reilly street. Only one person, Fred Richter, appeared at the hearing to be heard. Mr. Richter said he could not understand why taxes yearly went higher and the same applied to assessments on property.

Mayor Dempsey explained that the increase over this year's tax rate was due to the inclusion of a number of items never before included in any city budget, such as \$5,000 for increased street lighting, salaries for mayor and aldermen, payment for new traffic signals to be installed next year, preparations for city hall restoration bonds, and other items. He also called attention to the largely increased amount of state and county taxes.

The tax rate for 1928 in case the tentative budget is adopted as it now stands fixes the rate at \$40.60. No one else appearing at the hearing to be heard, the mayor declared it closed. The budget now goes to the incoming council at its first regular meeting in January for action.

The budget was printed in Tuesday's Freeman.

## No One Opposed To Salary Laws

Evidently none of the residents of Kingston are opposed to the aldermen receiving an increased salary effective the first of the year for no one appeared in opposition to Local Laws Nos. 2 and 3 at the public hearing held by Mayor E. J. Dempsey Tuesday evening at the Municipal Building. Both laws now go to the mayor for his approval or disapproval as they have been adopted by the common council. The laws provide for a yearly salary of \$250 for aldermen and \$700 for alderman-at-large, effective January 1.

## Dr. George Basten Dead at His Home

Widely Known Physician Died at His Home on Auburn Street After a Lengthy Illness—Brief Sketch of His Busy Life.

Dr. George C. Basten, a widely known physician of this city, died this morning at his home, No. 82 Auburn street, after a lengthy illness. Dr. Basten is survived by four sisters, Mrs. A. T. Sturdevant of Danbury, Conn., Mrs. L. B. Van Gansbeck of this city, Mrs. Harry Squires of Detroit, Mich., and Miss Mary Basten who resided with her brother, and one brother, Charles Basten of Stoughton, L. I. Funeral arrangements have not been completed.

Dr. Basten had been engaged in the practice of medicine in this city for half a century. He was born in Marlborough on March 18, 1851, a son of the late Peter A. and Sarah Elizabeth Murdoch Basten. Dr. Basten received his early education in the district schools at Cottekill and Stone Ridge, and also attended Miss Abbot's private school at the latter place. Later he was a student at the Roxbury Academy in Delaware county. After leaving school he learned the cooper's trade which he followed for several years and then commenced teaching school in Westerlo, New York. Port Egan and Creek Lakes. During this period he also devoted himself to the study of medicine and in 1869 he entered the office of Dr. Levi Lounsbury at Stone Ridge. The following year he studied in the office of Drs. Crispell and Smith in this city and in 1870 took a course of lectures at Burlington, Vermont. In 1872 he was graduated from the Bellevue Hospital Medical College and returning to this city he remained with Drs. Crispell and Smith for two years and then opened an office of his own on the Strand where he practiced until he erected his residence on Auburn street where he had since been located.

## City Physician 14 Years

Dr. Basten during his long and honorable career as a physician served the city for several years as a member of the board of health. He also served for fourteen years as city physician of the eastern department and had held the office of school trustee in his district.

In 1874 Dr. Basten married Miss Alecia C. Clouston, who died a number of years ago. By this union they had one son, Charles, who also died.

Dr. Basten was one of the few remaining old time family doctors and during the many years he practiced he built up a large practice as he was very skillful in his profession and was known as one of the finest medical doctors in Ulster county. He was also noted as a surgeon in his younger years. He was very active for many years until he was attacked with erysipelas, which necessitated the amputation of one of his legs. After recovering from the operation he was able to get around with the use of crutches but of late years the other leg was attacked and since then he had been confined to his home but was able to get about the house with the aid of a wheel chair until several months ago when his condition grew such that he was forced to take to his bed.

**Jovial and Cheerful.** In spite of his affliction Dr. Basten was always jovial and cheerful and liked nothing better than to have his friends drop in and chat over old times with him. During the many years he had resided in Kingston he made a host of friends and was a man who was held in the highest esteem by all who knew him.

During the past two months his health failed rapidly and it was only a question of time when death would ensue. In the death of Dr. Basten the city has lost a man who when active was also interested in the advancement of its best interests and always ready to do what he could for the betterment of local conditions.

Pope Pius has created five new cardinals, all non-Italians, thus dividing the College of Cardinals equally between Italians and non-Italians. There are now 23 of each.

The ceremony in the Vatican was attended by the highest dignitaries of the church, including cardinals, patriarchs, archbishops, bishops, abbots and canons. They produced an impressive and colorful effect in their bright robes and dignified bearing.

On the appearance of the Pontiff, all fell to their knees, as the famous silver trumpets and the Sistine Choir filled the ancient hall with music. Then the Pope took his seat and all departed but the cardinals.

Inside the hall the Pontiff, speaking in Latin, enumerated the prelates he intended to raise to the purple, praising their virtues and attainments.

When none of the cardinals had aught to say (after an ancient proceeding) the Pontiff then officially proclaimed the new cardinals.

The impressive ceremony ended as the Pope descended the throne and after each cardinal kissed his hand, he returned to his private rooms.

Paris—The "suspenders" has been revived on some sports models, which include also the tank-top blouse. The suspenders is made of the material used for the skirt and contrasts with that of the waist.

Chanel's rhinestone necklace has become the rage and costs quite as much as a genuine jeweled necklace—except a diamond one—would cost.

Lanvin's robe de style with accompanying bracelet made of rhinestone leaves is a Paris success.

Felt hats continue to be the most popular hats in Paris, and often have a point directly between the eyes, a la Mephisto.

Dresses made of two large square scarfs are being made for the Riviera. One scarf pattern has white dots on a black ground, with a border of semi-circles, also dotted and alternating with red.

Small polka dots appear to be important for spring and for southern resort wear. They are sometimes in many colors and resemble confetti.

Buckles, so important on dresses and hats, are being added to street as well as evening shoes, many of which are suede, with metal and enamel buttons.

French women are more given to scarfs than women in America. They are usually worn under fur coats, and are inclined at present to be of large block or broken plaid surah or taffeta.

**Picturesque Evening Gowns Now Prominent Part of Milady's Attire.**

A new note in the formal frocks that go to dances and the theater has been exhibited in the gowns that are winning attention in the smartly dressed world. The picturesque costume is now at the height of the mode. The sophisticated frock that depended entirely upon line has made way for the formal gown of billowing skirt that is part of the robe de style; the short knee length dress of velvet—very full and uneven as to line; trains are even seen as well as the dropped shoulder yokes of another day—these types of dresses that announce the sartorial formal season will all stress the picturesque and individual.

The marked feminine feeling is being expressed with particular effectiveness. The snug-fitted bodices is much seen with berthes, proving popular in many instances. Full skirts, short in front, but falling nearly to the ground in back, are seen, too.

The short in front, but longer in the back line of the skirt is pretty nearly the accepted silhouette, but in all cases it does not lend to grace and many of the Paris designers have created instead gowns expressing individuality by having an uneven hem-line appear at all sorts of places.

Virginia Lee Corbin, the featured motion picture actress, whose blond daintiness makes her easy to gaze upon in the modern formal frocks, appears in a striking costume in the film, "No Place to Go." It is of hip-stuck red velvet, irregular of hem, faced with silver cloth and turned

back to reveal the silver on the outside. The skirt is gathered with a heading of the silver and attached to an elegant basque. Garlands of roses trim the dress and the picturesque note is decidedly present.

**WHAT TO EAT**

A most attractive sauce to serve with cold lamb is:

**Green Olive Mint Sauce.**—Take one-fourth of a cupful of vinegar, one-fourth of a cupful each of orange juice and chopped olives, one tablespoonful of sugar, one-fourth of a cupful of finely minced mint leaves. Let stand after mixing on the back of the range for an hour. Serve cold.

**Lamb Oriental Style.**—Take one pound of the shoulder of lamb, one-fourth of a cupful of chopped onion, one cupful of lamb broth, two cupfuls of canned tomato, two cupfuls of string beans, pepper and salt and six tablespoonfuls of flour. Cut the lamb into two-inch pieces, brown in a hot well greased frying pan, then put into a casserole. Cook all together well covered until tender. Remove the meat and vegetables to the center of a platter; around this place a border of rice and pour the gravy around the rice. Serve sprinkled with minced parsley.

**Gypsy Stew.**—Take a few small new carrots cut into slices, six small onions, a cupful of peas, cook until tender, add a slice of diced and browned salt pork and milk to season well. Serve hot.

**Purée of Pea Soup.**—Rub a cupful of peas through a sieve, add a pint of milk, a tablespoonful of flour and butter cooked together. Season, and serve with croutons.

**Frosted Ginger Cookies.**—Cream one-quarter of a cupful of butter with one-half cupful of sugar and the beaten yolks of two eggs, two tablespoonfuls of strong coffee infusion, one-half cupful of pastry flour, one and one-half teaspoonfuls of baking powder, one-third of a teaspoonful of salt and three-fourths of a cupful of chopped candied ginger. Combine and blend well, drop from teaspoon onto baking sheets. Bake in a moderate oven and when cool frost with marshmallow frosting.

The advantage of a variety of cookies over cake is that if kept in tight cans they will keep fresh and tasty for weeks.

## Highland Man Died in His Auto

A. J. Atkins of Highland, salesman, gasped once and died Friday as he was raised from a crouched position in his Buick coupe by a Marlborough Garage mechanic, after the coupe had crashed through the doors of the garage and into a bus which men were repairing. Heart disease was named as the cause of the man's death by Dr. Harris who with Coroner Schlor was called immediately.

Mr. Atkins, salesman for the Fuller Brush Company, was driving down DuBois street which has a steep grade, when, it is thought, he was seized with the heart attack and lost control of the car. The speed of the auto increased and it dashed over the state highway at the foot of the hill into the Marlborough Garage doors. The doors gave way when struck by the car and the auto plunged into the bus that was being repaired at the garage.

Some mechanics were working on the bus when they heard the doors give way and they quickly got out of the way. Only one was slightly injured on the arm.

The men pried open the door of the coupe and found Mr. Atkins slumped down in the driver's seat. The man, said to be about 35 years of age, gasped once and died.

## THE WEEK AT ROUNDTOWN PRESBYTERIAN CHURCH

Interesting Christmas services were held Sunday in the Roundtown Presbyterian Church. At the morning service the Sunday school united with the congregation and the Rev. Dr. C. G. The annual Christmas entertainment of the Sunday school will be held this evening at 7:30 o'clock.

There will be the usual Thursday evening service. The subject will be "The Immediate Task Before the Church."

At the vesper services on January 1 the services will be in charge of the young people of the church. W. C. A., Chester Hall of the Y. M. C. A., the Rev. G. L. Withers, pastor of Trinity M. E. Church, and the Rev. Dr. Charles G. Ellis.

### World's Steam Wells

Geysers Creek canyon, about seventy-five miles from San Francisco, has several steam wells. Lardelo, Italy, has several. There are, however, few localities where natural steam wells are possible. Volcanic action must have brought the heated interior of the earth's crust close to the surface, and conditions must be favorable for water to reach the heated rock masses through natural channels. Other such regions are the Valley of Ten Thousand Smokes in Alaska, a region in Japan, one in northern Chile and one in New Zealand.

## Keep Your Motor WARM

At 60° you need a shutter!

It is a well-known fact that the automobile motor needs heat to operate most efficiently—to give the most miles per gallon of gas, to save oil, to end wear and tear on the battery, and warpage to reciprocating parts.

## Knights Discuss Charitable Work

Fourth Degree Assembly Knights of Columbus discussed the charitable work of the order at a dinner at McCabe's restaurant, Wall street, Tuesday night to discuss charitable work being done by the Assembly. The charity ball, which will be held in February and the medium through which money for the charitable work is largely obtained, formed the major topic at the dinner in the private dining room.

After all had enjoyed a delicious repast with turkey as the principal food and music by John P. Erne's orchestra, Faithful Navigator, Bernard A. Feeney presented District Deputy Patrick T. Murphy as the toastmaster. The principal speaker of the evening was Grand Knight William Rudolf of Morris Park Council, New York. He dealt with work among youths, too young to join the Knights of Columbus, and pointed out the advantages of carrying on such work. He described the Columbian Squires of which there is a branch in his council, also the advantages of a community center.

Morris Park Council is now erecting a \$500,000 community center for youths which the members deem an important investment, and have spent several years of labor on the plans. After the delightful talk by Mr. Rudolf, Joseph F. Sullivan, former executive officer of the Fourth Degree Assembly and Eugene B. Carey, treasurer for five years, outlined the plans of the organization in carrying out charitable work. Both men in their talks told of the charities carried on by the Assembly. The scope of work as outlined by the men, who mentioned no beneficiaries in their talks, covers the providing of groceries, clothing and coal for many families in need; the caring for sick and crippled children, with the furnishing of braces and crutches in some cases and arranging for operations; caring for aged couples so that the breaking up of a home might not be necessary and the assisting of widowed mothers to maintain their children without sending them to orphanages.

The talks given by the men concerning the charity work of the Fourth Degree Assembly were to encourage all to take an interest in the work and help promote every cause for the financing of the work.

The Assembly in the charitable work co-operates in many cases with the Rotary and Kiwanis Clubs, the Salvation Army and the Catholic Charities. The committee also keeps in close touch with Superintendent Thomas Edmondson of the City Home.

In addition to the talks by the men named Edward Tremper, chairman of the dinner committee, William O'Reilly, Florian P. Wingert, E. Frank Flanagan, William Byrne and John P. Erne also spoke.

**Two Killed in Gang Warfare**

Chicago, Dec. 25 (AP).—Two men were dead today in what police believed was a renewal of gang warfare, after a holiday truce.

A volley of revolver shots greeted Charles Miller, bear runner, as he started to a roadhouse on the northwest side shortly after midnight. Although Miller apparently recognized his assassins, he died without speaking. The men escaped.

About an hour later, a man was hauled into a hospital by several companions who dropped him on the floor, and left, telling a nurse they were going for his hat and coat. They did not return, but the man was later identified as John Davis.

He was believed to have been a member of the gang that shot Miller and was accidentally wounded in the head by one of his own party. Unable to talk, he died within a short time after his companions left. A bullet hole on the left side of a hat dropped near the doorway of the roadhouse corresponds in position with the wound in Davis's left temple.

The youths of the grade schools are encouraged to enter the preliminaries Friday as it will be the only means for getting into the finals. The winners of the finals will get the two trophies which were donated.

The fact that every grade school boy is interested in having his school honored, is expected to produce a large number of contestants for the Friday events.

## New Record for American Loans

New York, Dec. 28 (AP).—American capital in 1927 loaned abroad a total of \$2,000,193,500, establishing a record for one year, Max Winkler, vice president of Bertrou, Griscom & Company, said today.

This figure, he said, showed an increase of about 13 per cent over 1926 and brought our total investments abroad to \$14,500,000,000. The investments this year were more than 450 per cent over 1913.

Europe headed the list with \$885,310,300 and Canada with \$476,453,200 was second.

**Sumerians First to Use Sun-Baked Brick**

Some enlightening discoveries were made by the expedition of the Museum of the University of Pennsylvania in its excavations at Ur of the Chaldees, which shed a new light upon the civilization and living conditions of the ancient Sumerians who founded the city centuries before the birth of Abraham.

Particularly interesting were the specimens of jewelry in gold, silver and semiprecious stones found in one of the older cemeteries dating back to 3500 B. C.

It was these same Sumerians who introduced the manufacture of sun-baked brick into the Mesopotamian region and later perfected their methods of manufacture by burning them. The custom of the period seems to have been for each conquering invader to demolish promptly and effectively the structures of the vanquished. So in Ur, as in Babylon and Nippur and, in fact, in every one of the older cities, ruins are found on many levels showing where new cities were reared upon the ruins of the older ones.

These sun-baked bricks, forerunners of the present-day common brick, occasionally still encountered, are of brick rather lightly burned, compared with the present-day product. Many homes were supplied with bathing pools, and drainage was by underground sewers constructed of burned clay tile.

## Crash Plate Glass To Get in Theatre

Special Christmas Performance at Reade's Kingston Theatre After Midnight of Sunday Draws Huge Crowd Which Requires Presence of Police Reserves.

Police reserves were necessary Sunday night to handle the crowd of people desiring admittance to the special Christmas performance which was staged at Reade's Kingston Theatre after midnight. Manager Teiler had announced a special performance to begin one minute after midnight Sunday and also stated that no tickets would be sold prior to midnight on account of the ordinance which prohibits Sunday shows. Living up to that ordinance, the theatre was kept closed and no tickets sold until after midnight.

Long before that hour, in fact shortly after 10 o'clock, people began to arrive and stand in line. Soon the line was stretched out into the street and before the doors were opened there was a mob milling about for a place of advantage to get tickets early and get inside the theatre out of the cold.

As the crowd increased and it became apparent that there would be a crush, police reserves were called. So closely were the people packed that it was impossible to prevent plate glass in the doors from being broken. Women fainted and when the doors were thrown open the crowd swept in the theatre and carried the box office booth down the lobby for several feet.

Tickets were sold as rapidly as possible and the capacity crowd was finally seated and the show began at 12:45 o'clock.

During the crush attendants placed sign boards along the plate glass windows separating the theatre lobby from the store adjoining to prevent the glass from being broken in the rush.

The performance was given to celebrate the first anniversary of the re-opening of the theatre following its rebuilding just a year ago when it was thrown open for the public on Christmas. The show by the Honey-moon Town Company was one specially arranged for the midnight show.

Speed Trucks Displace Horse-Drawn Vehicles

Internal combustion crowded the horse off the highway, but it is probable that the horse would have obsoleted himself anyway. It would be impossible for metropolitan centers of today to depend upon slow and cumbersome horse-drawn vehicles. The lumbering old wagons of two decades ago would clog the wheels of progress in an annoying or even disastrous fashion. It is doubtful even that enough horseflesh could be bred and maintained to take care of present hauling needs.

Transportation facilities progress with demand. The latest innovation in motor trucking is the lighter vehicle—the power and speed truck. Motor truck manufacturers today realize that the popular demand is for a vehicle that can move heavy loads quickly.

Although, relatively speaking, the "speed truck" is an innovation, a western concern pioneered this type of vehicle some time ago.

## Modern Arab Dandy

Smart and Inartistic. Greatly admired by the dandies of the East, the Arab is a very interesting character. He is a dandy in his own way, and his dress is a study in itself. He is a dandy in his own way, and his dress is a study in itself. He is a dandy in his own way, and his dress is a study in itself.

Sportsmen they all are—loving a gun and a horse and can anything else in the world and ready for any form of hunting.

From an intellectual point of view the Arab is a dandy, very ill read and utterly uneducated. With an Arab of good upbringing there are two subjects which he can discuss—religion and sport. They have not heard of the most world-famous authors. Shakespeare, Goethe, Voltaire, are not even names to them, except when they happen to have been applied to streets which they have frequented.

Mostly, outside their own, is an unknown quantity; pictures other than photographs of people they know do not exist. All that which counts for us in the literary, musical, artistic world is as complete a blank to them as a Babylonian cuneiform to an able seaman.—From "Algeria From Within" by H. V. C. Bailey.

It is scarcely an exaggeration to say that many matters which agitate the public mind are not worth a thought in comparison with dietary questions to which a thought is seldom given.

## THE CRUSTY CROUTON

THE use of the crouton both as part of a dish and as a garnish to it is an accomplishment. The crisp, buttery squares or triangles of bread toasted to an even brown add as much to the taste as to the appearance of a dish.

In dishes in which the meat juice is unthickened, the bits of toast soak up the juice and are thus more available for eating. The method of getting the most out of the precious juice should be considered.

Cream toast is only another form of using the toast in serving this delicious dish. Toast garnishment of circles, squares, triangles or cubes are all used to make the dish they serve go farther, look better, and taste good.

The crouton is prepared in various ways. Bread cut into cubes, very small ones, and browned in the oven, is spread lightly with butter. Bread uncut is cubed, stirred into butter and browned in the oven, or unbuttered, cut into cubes and fried in deep fat until brown. Then the croutons are lightly salted and kept in a warm place until served.

In preparing croutons the crusts of bread are always cut off. This is true of any decorative toast such as triangles or other shapes. No matter what the shape, the bread should be cut with exactness and the edges free from roughness.

A bread pudding may be a dish for a queen if prepared with care and taste. Try this for Sunday night supper.

## Supper Dish.

Toast as many slices of bread as needed, until a golden brown on both sides. Spread with butter, a touch of anchovy paste, just enough to lightly season, salt, sprinkle with cheese and cover with milk and egg, one cupful of milk to an egg. Bake.

## How It Started

By JEAN NEWTON

## "MY EYE"

THIS exclamation, used to express doubt or incredulity mingled with contempt for the very absurdity of the thing, is not only slang but has fallen into disrepute as a vulgarity, used only by those whose resources in language are few.

However, in England, the home of the expression, it has long been a popular bit of slang in perfectly good standing. It is used there in its original form, which is "All my eye and Betsy Martin." Somehow this has a less offensive flavor than the abbreviated form. And it is in fact so well regarded across the water that Galeworthy, in his latest book, has put into the mouth of a charming English gentleman the exclamation, "All my eye and Betsy Martin."

The unique story connected with its origin is as follows: A sailor entering a church, where the service was being held in Latin heard these words: "Ab, mihi, beate Martine." ("Ah, grant me, blessed Martin"). Not comprehending what was being said, he did not stay very long, and later, on giving an account of the experience, it seemed he had retained the first few words, for he said that he didn't know what it was all about, but that it seemed to him something like "All my eye and Betsy Martin."

## Severs Land Ties for Sea

After selling all his ancestral estates in order to sever every tie with the land so that he might make the sea and his boat his home, Captain Gerhardt is touring the waters of the world. He has just arrived in Suva after having crossed the Atlantic and Pacific oceans in his 34-foot cutter yacht. During 94 days in crossing the Atlantic he did not see land, seldom viewed a sail, and encountered two violent hurricanes. Passing through the Panama canal he visited Gallapagos, Gambier, Marquesas, Tuamotu, Tahiti, Bornborn, Pago Pago and Apia. Warned of the dangers near Wallis, he went there and was wrecked, but liked the simple-hearted people so well that he remained four months.

The annual meeting of the stockholders of the Federal Road Machinery Company will be held at the office of the company in Kingston, Peter County, N. Y., on Monday, January 9, 1928, at 12 o'clock noon, for the purpose of electing directors for the year, and for the purpose of receiving and for the transaction of such other business as may properly come before such meeting.

## Financial and Commercial

Stocks. The New York Stock Exchange, after a steady decline in the early part of the week, closed higher today. The market was characterized by a general upward movement, with many stocks showing significant gains. The volume of trading was moderate, and the overall sentiment was optimistic.

Weekly steel trade reviews reported the usual sharp fall in the operations, due to shutdowns, but emphasized the unusually heavy demand for railroad equipment which will be reflected in operations after the first of the year. Packard Motors published an unusually favorable quarterly report, showing a net profit of \$1.54 a share, as against \$1.27 in the same quarter a year ago.

Stocks, which were rather sluggish in the morning, turned upward in the afternoon under the leadership of St. Louis, San Francisco, Rockland, Lehigh Valley and Atchafalaya. St. Louis Southwestern was a conspicuous exception, falling back three points.

Brooklyn Union Gas, Brooklyn Edison, Consolidated Gas and Abilotti Power all moved into new high ground, some of the gains running from 2 to nearly 5 points. Other issues which broke into new high ground included Christie Brown, Collins and Aikman and Outlet Company. Pan American B was bid up 2 points but the other oils failed to follow in its wake. American Brown Boveri preferred jumped 10 points and the common 3.

Quotations given by Parker McElroy & Co., members N. Y. Stock Exchange, 120 Broadway, New York City, branch office, 260 Fair street.

### C. H. SAFFORD PRESENTS PORTRAIT TO HOSPITAL.

The Kingston City Hospital is the recipient of a beautiful portrait of the late Faith Safford given by her father, Charles H. Safford, in her memory. This lovely water color portrait of Miss Safford is an enlargement of a snapshot taken by Faith's cousin, Bess Tilson, when a party of school girls were on a trip to Lake Mohonk several years ago. Standing on a ledge of rock near Skytop, Faith has just thrown a bit of rock down the mountain side and stands lightly poised as she listens to the echo of this falling stone. The enlargement was made at the Pennington Studio and Mrs. Pennington has given to it a rarely life-like touch. The painting is framed in Delft blue and gold, blending perfectly with the color tones of the picture, and hangs in one of the private rooms of the hospital where it is found to be an inspiration and joy to patients confined in the "Sunset" room.

### And It Really Seemed Such a Nice Scandal.

A conversation between two women, one of whom was hard of hearing, interested the passengers of a Glenwood avenue car.

"I saw her on a street downtown with a man."

"Is that so?"

"Yes, and it was after ten o'clock, too."

"The very idea."

"I never suspected her of flirting before."

"No, nor me, either."

"But you never can tell."

"Isn't it the truth?"

"It is that."

"Do you know her husband?"

"No, I ain't never seen him close."

"Well, he is a big fat man."

"Does he wear a brown suit?"

"Yes."

"Glasses?"

"Yes."

"Smoke a pipe?"

"Ch, bah."

There was deepest disappointment in the woman's voice as she exclaimed:

"Fiddlesticks! Then it was only her husband after all!"—Youngtown Telegram.

### Rather Spoiled Effect

Johnnie is the son of a well-known business man who lives in Logan. Sunday afternoon Johnnie's parents had company for dinner. Jack, as Johnnie is sometimes called, is almost six years old. Now Johnnie's parents, true to nature, are proud of their son and his ability. At the dinner table the little boy was asked to say grace. In a quiet manner Johnnie complied with the request. With bowed head he said the prayer perfectly. When he had finished his aunt—very religiously inclined—praised him. "John, that was fine," she said. "You didn't make even one little mistake." With a wild gesture of his arm, Johnnie remarked: "And I said the whole darn thing, too!"—Philadelphia Record.

### Natural Washub

There is a hot spring known as "Handkerchief Pool" located in the Black Sand basin at Old Faithful. Geyser formation. The spring is a round pool with a deep hole in the center, from which bubbles are constantly rising. A handkerchief placed in this pool will be drawn under by the action of the water and several minutes later will be forced upward by the bubbles. It comes out clean. The pool has a circular current, which works around in circles, causing this peculiar phenomenon. The pool has many amusing legends connected with it and is one of the most widely visited places in Yellowstone park.

### Truth Too Startling

Were writers of fiction to put incidents from real life into their works, most of the stories would be so fantastic that they would not be believed, declares Rita Weisman, well-known author, in a letter in Liberty. "Truth is too strange for fiction," the writer asserts. "The adventures of human experience are almost invariably too amazing, too shocking, too horrible, too apparently exaggerated to be transcribed exactly as they meet us. In sharp black type on any printed page but that of a newspaper, they would appear absurd, the wildest stretch of the imagination."

### It Can't Be Spoiled

Palm Beach, in spite of the funny people who go there, is the loveliest resort in the western world.—Woman's Home Companion.

### "Item Veto"

The President of the United States cannot veto a part of a bill passed by congress; he must veto the entire bill or none of it. On the other hand, about three-fourths of the state constitutions give the governor power to veto or strike out separate items in appropriation bills. This is popularly called the "item veto."
